THE THREE LITTLE CHAIRS.

They sat alone by the bright wood fire,
The grey-haired dame and the aged sire,
Dreaming of days gone by;
The tear-drop fell on each wrinkled cheek,
They both had thoughts that they could not speak,
As each heart uttered a sigh.

For their sad and tearful eyes descried,
Three little chairs placed side by side,
Against the sitting-room wall;
Old-fashioned enough, as there they stood,
Their seats of bag, and their frames of wood,
With their backs so straight and tall.

Then the sire shook his silvery head,
And with trembling voice he gently said—
"Mother, those empty chairs,
They bring us such sad, sad thoughts to-night.
We'll put them forever out of sight,
In the small, dark room up stairs."

But she answered: "Father, no, not yet.
For I look at them, and I forget,
That the children went away.
The boys come back, and our Mary, too,
With her apron on of checkered blue,
And sit here every day.

Johnny still whittles a ship's tall mast,
And Willie his leaden bullets casts,
While Mary her patchwork sews;
At evening time, three childish prayers,
Go up to God from those little chairs,
So softly that no one knows.

Johnny comes back from the billow deep,
Willie wakes from the battle-field sleep,
To say a good-night to me:
Mary's a wife and mother no more,
But a tired child whose play-time is o'er,
And comes to rest on my knee.

So let them stand there, tho' empty now.
And every time, when alone, we bow,
At the Father's throne to pray,
We'll ask to meet the children above,
In our Savior's home of rest and love,
Where no child goeth away."

Fearful Disaster.

Terrible Fire in a Pennsylvania Coal Mine.—Over Two Hundred Men hemmed in the Shaft by the Flames.

PLYMOUTH, PA., September 6.—A fire broke out this morning in the five and bottom at Steuben shaft, owned by the Delaware, Lackawanna, and Western Company in this place, and in a short time the whole breaker and out buildings were in flames, and the hoisting apparatus, the only avenue of escape for the miners, destroyed.—All efforts to stay the flames were unavailable, and the whole structure fell, filling up the shaft. Over two hundred men are in the shaft, and have no communication out, with no chance for air, as the only means of getting air into the shaft was through the main opening, and that was filled with burning timbers and debris of the flames. It is feared the whole number have been suffocated by smoke, or perished for want of air.

The fire department of Scranton, Wilkesbarre and Kingston are playing streams down the shaft for the purpose of quenching the fire there, so the rubbish can be cleared out and the condition of the men ascertained. It will probably take till to-morrow morning before tidings can be received from them. The scene is heart-rending. Families are congregated in great numbers, miners from all parts of the country are there at work and merchants, and in fact the whole population of the town turned out to assist.

SCRANTON, Sept. 6.—The fire began at ten o'clock this morning. All experts agree that it must have communicated from the ventilating furnace to the wood work at the bottom of the shaft, which is 327 feet below the surface. The flames rushed with great violence up the shaft, and broke out in the engine room at the top. The engineer barely escaped with his life. The buildings covering the mouth of the shaft were 100 feet high and 200 feet long, all wood, as dry as tinder. They were almost instantly enveloped in flames, and it was impossible to reach the mouth of the shaft, to help the men below.

A fire engine from Kingston, and one from Wilkesbarre were on the ground, but water was scarce and the location difficult, being higher up, on a very steep hillside. The work of quenching the fire and cleansing the shaft consumed some hours. Meanwhile thousands of people gathered from the surrounding country. The families of the men in the pit were present, and their cries were heart-rending. At fifty minutes past five o'clock a dog and lamp were sent down in a bucket, to test the air, and when brought back the dog was alive and the lamp burning.

Immediate preparations were made to descend the shaft, and at 6:35 o'clock a man went down in a bucket, and in seven minutes returned and reported no difficulty in breathing, but obstructions half-way down so that he could not pass. At 6:50 two men were sent down with tools. They removed the obstructions and reached the bottom of the shaft and returned at 7:15. They reported that they had penetrated the gangway sixty or seventy yards, finding three dead mules, and reaching a closed door, at which they battered so lustily that their blows were heard above ground, but they got no response and discovered no signs of life.

Clouds of sulphurous gases were pouring out through the door, yet they could breathe without much difficulty. The clouds of sulphurous gases mentioned as pouring through the gangway door, to which the rest of the men down had penetrated, must have filled that part of the mine around the foot of the shaft if not all of it.

Dispatches just received from Avondale say that Thomas W. Williams, of Plymouth, and David Jones, of Grand Tunnel, who went down to make further investigations, were suffocated in their second attempt. Williams is dead and his body was brought out by David H. Davis and Benjamin Jones. Thomas Williams went down and dragged David Jones some distance to the foot of the shaft, when he was compelled to come up. John W. and Isaac Thomas then went down and brought up the body. All who attempted to go down are now out alive except Williams and Jones. No further attempt will be made until a small engine is rigged.

The loss by the burning of the Avondale mine works to-day is from $80,000 to $100,000. This mine has been involved in a strike for over three months, but resumed work last Thursday, and was producing 450 tons of coal per day. All who have been down say it is very hot, and loud calls have failed to elicit any answer.

The only hope for 202 men in the mine is that they have shut themselves in a remote part of the workings, entirely away from the draft.

Several hundred men were taken from here this evening with the idea of drilling a gangway from a neighboring mine into the Avondale workings; but as it must be solid rock cutting, this means would probably not release the imprisoned men in time.—The distance to be cut is variously estimated at from twenty to sixty feet, and the time required two or three days.

SCRANTON, September 7, 11 A. M.—The donkey engine and fan were put in operation about an hour since, driving in fresh air to the shaft. Messrs. Carson and Davis then went down one hundred feet, and then lowered lights to within 15 feet of the bottom of the shaft. The lamps burned freely. After making such observations as were possible, they returned, and those who had formed a committee to go down are now preparing to descend to remove obstructions and explore in search of their brethren. Thousands of miners, women and children cover the hills and grounds in the vicinity. A committee is circulating among the immense throng for subscriptions for the widows and orphans, who number over six hundred.

SCRANTON, September 7, Noon.—The very latest accounts from the scene of the dreadful calamity at Avondale Mine are to the effect that nothing has yet been done which warrants a hope for the safety of the men below. A steam fan has been put in operation, driving pure air into the shaft, but the quantity of foul air that still remains renders it impossible for a descent to be made.

A tunnel is being excavated with all possible speed, by which it is hoped to intersect the chamber where all the men are entombed. They will probably reach this chamber about five or six o'clock this afternoon.

The scene about the place of the disaster is harrowing in the extreme. Thousands of people are present, and others are arriving. The agonizing woe of the families of the unfortunate miners is heart-rending. Attempts to descend the shaft will be made this afternoon and before night it is thought the extent of the calamity will be known.

COOLNESS.—Sam Slick tells a story of an overgrown bulk of a Yankee boy who was sent to the wood-pile by his father one cold winter evening, for a "back-log" for the kitchen fire. The youth went out, but instead of bringing in a good substantial log, only brought a thin little stick—or "shull," as the Pennsylvania Germans say.—His father immediately gave him a good whipping, and sent him after another log. But the youth having his "dander" up left the house, went to Boston and shipped on a vessel which made a voyage of several years.

In the course of time the youth came back and started home on foot. It was winter and just such an evening as the one on which he left home. So, remembering his father's order he picked up a hugo log, and staggering into the house, threw it down on the hearth before his astonished father and mother, and quietly said:

"Father, here's that back-log you sent me for."

"Well! you've been a darned long time about it!"

We were reminded of this story by the following, which we find floating about uncredited:

"A certain distinguished citizen of Milwaukie, Wisconsin, who has filled the highest office in the State, was once in the employ of a farmer in western New York. Among other things it was his duty to "bring in the cows." One evening the cows and boy "came up missing." Some years after, the farmer was passing down East Water street, Milwaukie, and saw the name of his cow boy over the door of one of the largest hardware houses in the West. He stared a moment on the truant, and then broke out with, "Hallo, Len, have you found them cows yet?" One can imagine what followed—a mutual recognition. It is said the old farmer was pacified without a breach of the peace.

The Urbana (Ohio) *Citizen* of last week has the following: "The stump of the Harrison flag staff erected in 1840 was resurrected last week by the workmen engaged on the foundation of the soldiers' monument. Two Irishmen were standing by when it was discovered, and one, a Democrat, supposing that Harrison had run on the Republican ticket twenty-nine years ago, said: "Look, Jimmy, the thing is rotten, just like the party.'—The other, a sound, well-informed Republican, replied: 'But don't you see, Teddy, the heart is sound.' And so it was—the heart of the timber was in a remarkable state of preservation."

WHEN is a boat like a heap of snow? When it is a drift.

Lost and Found.

FLOATING DOWN THE RIVER, THE OHIO.

During the great flood of 1847, when the Ohio river so far overleaped the bounds of propriety as to come up to Pearl street without any invitation, a great many dwellings located on the river banks were swept away and came floating down upon the pitiless tide. Loss of life not unfrequently attended these disasters, as when a family, unconscious of their danger, were asleep in their beds when the water rose about their house, and lifting it from its foundations bore it away amid the darkness and the turbulent flood.

On the left bank of the Ohio at that time, between Marietta and Pomeroy, stood an humble dwelling occupied by a small farmer and his wife, together with five children, the youngest an infant girl a little over a year old. The river rose during the night while the family were in bed. The rocking of the house as the surging waters climbed it, awoke the inmates, and through great and hasty exertion the farmer was enabled to get all his family, as he supposed, to a place of safety, tho' be lost everything else. Standing on a little eminence near by he saw, through the gloom of that dreadful night, his house with all its contents yield itself to the grasping avaricious flood and float down the river, where it was soon lost in darkness. He supposed that all were saved, but alas, it was soon discovered that their infant girl was missing.

In the confusion and excitement of the moment the baby was left sleeping on its bed, and had been swept away to destruction with the house. Great was the grief of the parents at the loss of their youngest born, and altho' duo efforts were made to learn whether or not, she had been rescued, nothing was heard of her, and it was very naturally supposed that she was drowned in the river.

Such, however, was not her fate. A hundred miles below where his dwelling was swept away, some people on the river bank the next morning saw something peculiar floating down on the current. They thought it was the form of an infant. A boat was procured and the object was indeed found to be an infant girl sleeping calmly and profoundly upon a bed.

She was taken in charge by a family in the vicinity, who took such means as they knew to ascertain to whom the child belonged, but there was no clue to guide them, and soon the little waif that had floated down to them came to be considered as their own child. They adopted her more readily, perhaps, on account of being themselves childless, and because, of their sympathies being so greatly excited by the peculiar circumstances of the case—an infant floating all that night of terrible storm, amid wrecks and bridges and dwellings, protected from danger by an unseen power, that seemed to direct her to their love and care. It may seem strange to the reader that the parents were not found for the child, or the whereabouts of the child made known to them, but it must be remembered that newspapers were not so numerous or accessible twenty years or so ago, as now, and that people didn't advertise the lost as they do now. Besides, all the parties were in humble life, and their circle of acquaintance, as well as their means, were very limited.

Meanwhile the waif grew into a beautiful girl, and became as dear to her adopted parents as though she was their own. She had mourned for "mamma" a little time, but, ere long, all recollection of her early surroundings were but dim and shadowy, and her new parents and her new home became all-in-all to her. A few years and the family moved into Illinois, settling on a farm near Chicago. The man prospered there, and was enabled to give his beautiful Ohio river foundling an education fitting her graces of person, her amiability and her virtues. A short time ago her hand was sought in marriage by a worthy young farmer in the vicinity of where she lived, consent obtained, and the happy day appointed. One day the family were in Chicago purchasing her wedding outfit. At a dry goods store a clerk who was waiting on them observed our heroine intently, and seemed singularly affected—so much so as to attract attention.

"Excuse me," he said, in some confusion, addressing the young lady, "don't be offended at my staring so anxiously at you, but the truth is, you are a perfect picture of a sister of mine at home, and I couldn't help thinking you looked just as another sister of mine would have looked, who was swept down the Ohio in a great freshet and lost."

The words attracted the attention of the young lady's adopted parents. The resemblance spoken of, and the incident of the freshet taken in conjunction, could hardly have failed to do that. Explanations followed, and it was pretty satisfactorily concluded that the clerk and the young lady were brother and sister, as indeed was afterward proved to be the case.

Her parents, too, had emigrated to Illinois, and lived not far from her own home. The families were brought together, and what was before believed to be true was established beyond question, when the bed upon which the child was found was produced, and the garments she wore; for what frugal housewife wouldn't recognize one of her own beds, and what mother would not remember the garments worn by her favorite baby?

There is little more to tell. Our heroine was married to the husband of her choice last week, and had the satisfaction of having her own as well as her adopted parents at the wedding. We don't consider it necessary to give the names of the parties, but the story is a true one, and we had the facts from one who is thoroughly conversant with them. — *Cincinnati Times.*

☞ "Occasional" writes from Washington to the Philadelphia *Press*, that the weakness of the Democratic party consists in the fact that most of its intelligent members are more than half inclined to be Republicans. General Rosecrans gave utterance to thoughts at work in a million of other minds.—He says, after declaring for universal suffrage and against repudiation, that he believes his views "are explicitly or inexplicitly held by three-fourths of our voting population."

What sort of cohesion can there be in an organization so embarrassed?—The leaders assert doctrines which the masses doubt or deny. The South has one platform—the North another.—One side courts the colored vote—the other condemns it. Pendleton declares for an unlimited currency—Hoffman ignores it. Andrew Johnson declares for repudiation—Chase against it.—And if these differences distress the leaders, what must be the condition of the rank and file? What intelligent Democrat will not turn with disgust from warring counsels and conflicting creeds? An organization to win must be a unit in its actions and in its ideas. The one cannot exist without the other.

The Republicans have one purpose and one platform. They are the same in Arkansas and in Kansas, the same in Maine and in Maryland, the same in Connecticut and in California. Gen. Rosecrans is right. He revealed the trouble in his own mind and in doing so echoed the trouble in many others. To such a pass is a great party reduced by the refusal of its leaders to accept the lessons of the times, to recognize the changes in society, and to follow the clear inspiration of patriotic duty.

KEEP THE BRAIN FALLOW IN CHILDHOOD.—When we are considering the health of children, says a writer in *The Methodist*, it is imperative not to omit the importance of keeping the brain fallow, as it were, for several of the first years of their existence. The mischief perpetrated by a contrary course, in the shape of bad health, peevish temper, and developed vanity is incurable. Some infant *prodigy*, which is a standard of mischief throughout its neighborhood, misleads them. But parents may be assured that this early work is not, by any means, all gain even in the way of work. I suspect it is a loss; and that children who begin their education late, as it would be called, will rapidly overtake those who have been in harness long before them. And what advantage can it be that a child knows more at six years old than its compeers especially if this is to be gained at a sacrifice of health, which may never be regained? There may be some excuse for this early book-work in the case of those children who are to live by manual labor. It is worth while perhaps to run the risk of some physical injury to them, having only their early years in which we can teach them book-knowledge. The chance of mischief, too, will be less, being more likely to be counteracted by their after life. But for a child who is to be at book-work for the first twenty-one years of its life, what folly it is to exhaust in the least its mental energy, which, after all, is its surest implement!

EXTRAORDINARY SELF-IMMOLATION.—The following statement appears in the *Pall Mall Gazette:*

All the extraordinary proceedings of the many fanatical sects whose rapid increase has excited so much anxiety in Russia are fairly thrown into the shade by a terrible act of self-immolation which is reported from the government of Saratow. A few months ago the prophets of a new religion made their appearance in that part of the empire, preaching self-destruction by fire as the only sure road to salvation; and so readily was their dreadful doctrine received by the ignorant and superstitious peasantry, that in one large village no less than seventeen hundred persons assembled in some wooden houses, and, having barricaded the doors and windows, set the buildings on fire and perished in the flames. The authorities are doing all they can to stay the progress of this new madness, but their task is obviously a difficult one. The punishments which the law can inflict must have little terror for enthusiasts who deliberately choose a death so horrible as the true road to heaven.

"Thirty years ago," says Wilkes' Spirit, "the orators ruled America: to-day it is ruled by editors." It adds: "There is a class of men among bankers and merchants and lawyers, who effect a condescension toward the journalists, which is intensely amusing. The writer of the newspaper appears to their blinking eyes a kind of literary adventurer, who is to be tolerated for his genius, but not to be trusted in business. They are ignorant that it sells their goods, furnishes all their facts, and presents them gratuitously with opinions. They do not know, as Jay Cooke does, that newspapers of America sold two thousands millions of national bonds. They do not know, as Edwin M. Stanton knows, that the newspapers of America sent two hundred thousand men to the war. Newspapers lead them by the nose wherever they go; but they do not feel the pressure: which is the reason why we give this special tweak."

A MEETING

Of the Republican County Committee appointed in accordance with the resolution of the late Republican Co. Convention, will be held at the Court House in Huntingdon, on WEDNESDAY, Sept. 15, 1869, at 1 o'clock, P M. The following list of Committee men has been furnished by the delegates to the late Convention from the districts named—delegates to the late Convention from all other districts are requested to furnish their Committee men with the proper credentials, it not being known who they have appointed.

Brady—Edward S. Green, M. L. Shaffner

Carbon—Joseph Hadley, Wilson Benson.
Coalmont—Levi Evans, Paul Weston.
Cassville—E. B. Wilson, Thomas Dean.

Henderson—Geo. W. Wells, David Douse.
Hopewell—George W. Putt, Wm. Enyart.

Porter—Robert Laird, David McCahan.

Springfield—John Ramsey, Samuel Weight.
Tell—Henry Okeson, William Jeffries.
Ted—G. W. McClain, Isaac Carlton.

A number of the Committee men who have been ruled out by Mr. Logan and his associate disorganizers, have requested us to make the above call, and we hope there will be a full attendance of men loyal to the Republican party, and the whole County, District and State ticket. Now is the time to save the great Republican party from defeat in the good old Republican County of Huntingdon.

The Democrats are anxiously waiting for the *promised* disorganization of the Republican party. Perhaps when the Mount Union disorganizers' "organ" makes its appearance they will feel more certain of running in their own men.

Our Legislative Ticket Complete.

The Republican Conference met at Lewistown on Friday last and put in nomination as the Republican candidates for Assembly for this district, Gen. T. F. McCoy, of Lewistown, and JOHN N. SWOOPE, of this county. A good ticket and it should receive the earnest support of every Republican in the district.

☞ A fellow by the name of Briggs from Tell twp., asserted in Logan's packed Committee that there were only two Republicans in his township that would vote the Republican county ticket. Briggs was at once recognized by the disorganizers as the right man for their purposes, and we would not be surprised if he should receive a call to fill a small office as a reward for his *valuable* services. The vote in Tell for the whole ticket will tell that Briggs asserted what he might have known to be false.

☞ A new paper to be published by Theo. H. Cremer at Mt. Union, is promised this week. It is to be conducted in the interest of the disorganizers. Mr. Cremer was a candidate before the late Republican Convention for nomination for Prothonotary, and was defeated by Mr. Fouse, a wounded soldier, and now Mr. Cremer is willing to aid in his defeat. Mr. Fouse is from old Republican stock and lost two brothers in the army. The disorganizers' love for the soldier! Out upon such rank hypocricy. Mr. Cremer has had his share of office, especially as there are other gentlemen in the party worthy to fill them.

Then and Now.

Some of the disorganizers who can offer no sensible or reasonable excuse for opposing the election of gentlemen on the Republican ticket, say they are acting no worse towards the party than we did three years ago when we refused to support Gen. Geary. Then, when we could not, consistently with our political feelings, support the nominees of the party, we acted the more honorable part, and did not claim to be a member of the party organization. If, as they then said, and now say, we were wrong, are not the disorganizers doubly guilty of injustice to their party, by trying to do just what they accuse us having tried to do then. We were then openly opposed to the ticket and the Republican organization—but the disorganizers claim membership in the organization they are trying to defeat. They are enemies in disguise to the Republican party—assassin-like they would stab the party they claim to act with; assassin-like they stab at the hand that feeds them, and has given them all the political notoriety they have.

We confess to our error three years ago, and claim to be in good standing with the Grant-Republican party—we having advocated the nomination of Grant when leading Republicans and leading Republican organs all over the State were denouncing him, and we intend to hold every man claiming to be a Republican strictly to his duty as a party man. Our many years of experience in and out of party organizations gives us some advantages over the present stock of disorganizers we shall not fail to make good use of.—They must take the water as we did, or prove themselves by their works worthy of the confidence of the Grant-Republican party organization. They can make choice soon of the company they wish to be found in, as Andy-Johnson-Loganism must be played out as effectually as Andy Johnson himself was played out.

☞ BULLY for the *Journal & American*. Last week's issue says:

"Our duty becomes a plain one. It is to urge upon every Republican in the County the undivided, entire and earnest support of our State, District, and County ticket, and to use all honorable means to secure its election."

That's right. That's flatfooted.—But how about the disorganizers—do you intend to give them the use of your columns to aid them in their efforts to defeat the ticket you feel it your duty as a party organ to support? Why not give the Democrats the use of your columns? Their purpose would only be to disorganize our party and defeat our ticket!—the purpose of the disorganizers is the same, and they should be treated with less respect than an open enemy. The proper and only honorable place for all who will not submit to the will of the majority of the Republican party is outside of the organization of the party until they are willing to work with the party and for the success of the ticket nominated by the only rules known to, and recognized by, the party organization. Give the disorganizers their proper place, and their influence with true and honest party men to defeat the ticket you feel it your duty to use all honorable means to elect, will amount to nothing. The County Committee you endorse is a part of the disorganizers' scheme to defeat the Republican ticket. The Committee *is not* the one appointed by the Convention of delegates that put in nomination the ticket you are willing to support. Then why accept the Committee as all right? Do you propose to harmonize with the disorganizers by placing in their hands the control of the party organization that they may *sneakingly* undermine the strength a party nomination should have? We honor positive men—positive positions. If you are honestly for the ticket—for the *success* of the ticket, and the *success* of the party, remove from the columns of your paper every thing calculated to have an influence against the success of the ticket.—You cannot expect victory to come from a mixture of disorganizers and true men. The sentinels on the outposts must be true, or the enemy will storm our camp.

☞ Attorney General Hoar has rendered his opinion in regard to the status of Virginia, saying that the Legislature must as a prerequisite, submit the constitution, and their action thereon to Congress, for approval. In this the test oath will not be required. If the Constitution and the action of the Legislature meets with approval, then the Legislature becomes the Legislature of the State of Virginia; but before such approval by Congress, Virginia not being in all respects a State of the Union, the Legislature, as a provisional body, cannot pass laws without its members taking the test oath. It must also ratify the fifteenth amendment, before it can be entitled to representation.

It is reported and believed that M. M. Logan will receive a fat office in Washington or somewhere else, as a reward for his willingness to be *used* by the disorganizers. We shall see.

☞ Who are falling from grace now—the Republicans who are supporting the whole ticket, or the disorganizers who refuse to support party nominations?

☞ On Friday last Mr. M. M. Logan, Chairman of his packed County Committee, offered us for publication, letters or affidavits—we did not read them—defending the character of the disorganizers' volunteer candidate for County Treasurer, Samuel J. Cloyd. It matters nothing to us whether Mr. Cloyd was or was not a good soldier. We know he is not the Republican nominee for the office he and his disorganizing friends want to secure, and we know further that Mr. Logan could not have been elected Chairman of a County Committee had the delegates suspected that he could be used for the purpose of disorganizing and defeating the party that made him all he is in politics. Mr. Logan and his associate disorganizers must understand that we cannot blow hot and cold at the same time—that we cannot play fair and false to our ticket at one and the same time—that we cannot be used by himself, Mr. Cloyd, or any other disorganizer, to aid in the efforts making to defeat men placed in nomination by the Republican County Convention. No soldier, no matter how worthy as such, can induce us to play false to *party nominations*. Mr. Cloyd took his chances before the Convention—he was honorably defeated by as good a Republican and as clever a man as there is one in the County, but who is not a member of the "ring," and that's why the "ring" and its influence is thrown in favor of the wounded soldier, Cloyd, not that the members of the "ring" *love* the soldier—not a bit of it—for we find the same "ring" opposing Mr. Fouse, also a wounded soldier, and who lost two brothers in the army. Get out, you hypocritical would-be leaders of the Republican party.

☞ We are very glad that the *Journal and American* of last week went as far as it did in the support of the regularly nominated Republican County ticket, but while it recognizes the action of the County Convention in the nomination of the ticket as the action of the party, which should be binding upon all party men, it also recognized the action of the disorganizers in the appointment of a County Committee which was not only not authorized but denied by the Convention. The same power that made the ticket selected a County Committee, but Mr. Logan turned traitor to the Convention to accommodate disorganizers, and *packed* a Committee to suit them. Mr. Logan's Committee is only a packed Committee in the interest of the "ring" of disorganizers, and cannot claim to be the Standing Committee of the Republican organization of the County. It is expected that the right Committee will assemble here to-morrow, Wednesday—a Committee that will act in harmony with the Convention that nominated our county ticket, and if Mr. Logan refuses to act with the Committee in support of the whole ticket, he should be unceremoniously dismissed, and a truer man to the party and its ticket appointed to act as chairman—then perhaps our neighbors of the *Journal & American* will be able to see the mistake they made in supporting the disorganizing "ring" Committee.

☞ A certain paper said to be the "Constitution of the People's League," a secret political organization *said* to be in existence in the County, was published in the *Journal & American* of last week. The document was not offered us for publication, for the reason we suppose that we too are denounced by the "ring" as a member of the League. Whenever the "Constitution" is "located" beyond a doubt, we will publish it, but we must confess that the more we hear the matter discussed or talked about, the stronger are our convictions that the noise and confusion is made to throw the responsibility off the shoulders of the guilty in the "ring" of disorganizers There is no necessity for such an organization in this county. The gentleman, Mr. Woods, said to be by the "ring" at the head of the League, is abundantly able to speak for himself, and we have no doubt he will speak in self-defence whenever he feels so inclined. As we are unjustly persecuted with him our columns shall be open for any defence he may have to offer, and more than likely somebody's fish will then be in the fire. Mr. Woods has always been a consistent and earnest Republican and a hard worker for the success of the party, which is more than can be said of most of the men who are prominent in the disorganizing fight against him and his friends.

☞ A Democrat asked us the other day whether we knew how much of the Packer money the disorganizers had received to help them fight the Republican ticket. We are not in the "ring," therefore we cannot say what arrangements have been made by the "ring" with the Packer interest.—That others than some of the leading disorganizers, are helping to pay expenses, we are justified in feeling very sure of, for we have never known them to be very liberal in helping to pay the necessary expenses of important campaigns. Republicans who are now prescribed by the "ring," contributed *five* dollars to secure the election of Grant to every one contributed by any one of the disorganizers, and yet the disorganizers claim the exclusive right to dictate who shall hold the offices under General Grant's administration.

The Avondale Calamity.

We publish this week one of the most heartrending calamities that has ever occurred in the history of our State. One hundred and eight human beings suffocated to death over two hundred feet below the surface of the earth in a coal mine at Avondale, in Luzerne county. The particulars are heartrending in the extreme. A fire broke out in the mines early on Monday morning, and beneath the fire were the miners, who had no other chance for escape but through the opening from which the flames were escaping, and they remained in the recess of the mine until Wednesday morning, forty eight hours after the fire broke out, when they were discovered dead and piled one upon another. Extraordinary endeavors were made to extinguish the flames by those around the opening of the mine, and after the fire was put out, the passage had to be cleared of the rubbish which had fallen in, and even then it was some time before a descent could be made, on account of the fire-damp. The bodies of the men were taken out and decently interred. Subscriptions are being raised for the families of the unfortunate men, which can be sent to Thos. P. Hunt, Wilksbarre, or George H. Stuart, Philadelphia.

Considering the extreme possibility of a repetition of such a calamity, and as our county is one in which mining operations are extensively carried on, we agree with the suggestion made by a cotemporary that the State Legislature should provide the safeguards against these terrible disasters which the experience of other countries has shown to be highly useful. Miners have a perilous life, and corporations having them in employ should at once see to it that such a calamity as that at Avondale does not happen to them. We believe the operators in our county are ever ready to put in execution any plan for the safety of their men, and they will not fail to profit by the fearful lesson of Avondale.

Something Wrong.

We are informed that the *Globes* of last week had not reached the post offices on the cross route from Mount Union on Wednesday or Thursday, and that the package for Mill Creek had not arrived at the post-office in that place on Wednesday evening.—Now, we inform our patrons that the *Globes* for all the offices east and west were put in the post-office at this place, of which Brice X. Blair is Post master, on Tuesday evening, and should have been received at Mill Creek and Mt. Union early on Wednesday morning. We do not want to charge the Post-master here with the detention of our papers, but we do say that it is his business to know why the papers were not received at other offices at the proper time. The *Globes* west are mailed in time for the Tuesday evening way mail. The *Globes* east are mailed in time for the Wednesday morning way mail, and the *Globes* for the townships on the Broad Top Railroad are mailed in time for the Wednesday morning mail. Any of our subscribers not receiving their papers at the proper time will please inform us and we will try to have the Post-Office Department find out where the fault is. Mr. Blair's connexion with the dis-"organ"-izers may have something to do with the delay of our papers.

☞ Some of the prominent disorganizers are already talking of starting a new party. They have almost worn themselves out with honest Republicans.

The Avondale Calamity.

Exploration of the Mine—An appalling Spectacle.—Two hundred and Three Dead Bodies Found.

AVONDALE, September 8, 3 A. M.—An entrance to the mine was effected about half an hour ago. The chambers were reached without serious difficulty. The first body discovered was that of Mr. Steele. Further on, and in the most remote chamber an appalling spectacle presented itself to the explorers. There in a heap and in all sorts of positions in which their last agonies had placed them, lay the bodies of two hundred and three dead men, not a vestige of life being visible in the countenance or form of any of the unfortunate men who had met so untimely and horrible a death.

The wildest excitement prevailed at the entrance to the shaft, and the shrieks of the friends of the dead, as the bodies were brought up, were deafening. Nothing can approximate to a description of the scene; no pen can portray it; the pent up grief of those who still hoped against fate, went forth in wails of heart-breaking agony; the endearing or tender words of the mother or wife, as she grasped the lifeless form of her son or husband and tried to bring it again to life, refusing to believe it could be dead, and defending it against all attempts at removal.

PLYMOUTH, September 8, 11:00 A. M.—There have been one hundred and twenty bodies brought up out of the mine, and they are still being piled into the basket below. The features are not contorted; they look natural and easy of recognition by friends and relatives. The bodies are being placed in ice. Some of them are being removed to their former homes and privately cared for, while the majority are allowed to remain until preparations are made for their funerals. Many of them will be buried together.

THE LAND LIEN DOCKET, for Huntingdon county, has been received at the Prothonotary's office, from the Surveyor General, and thereby a lien is created against every tract of unpatented land in the county. These *liens* should be promptly removed, to save interest and costs. Any information desired in regard to them may be had by addressing Simpson & Armitage Huntingdon, Pa., or by consulting them at their office in the brick row opposite the Court House.

The Red Men's Pic Nic.

Saturday last was the day selected for the Red Men's Pic-nic, and it happened to be a favorable one. A procession started from the wigwam of Arapahoe Tribe of this place, at nine o'clock, headed by the Band, and after parading through our principal streets, marched to Burchnell's Grove. There were about one hundred men in line, including representations from a distance, and the members of the Arapahoe Tribe. An Indian pony, gaily caparisoned and being led, brought up the procession.

Burchnell's Grove, which has been the scene of many pic-nics, in this and former years, never contained one as large as the Red Men's. The crowd during the day and up to 12 o'clock at night was immense, and the dancing floor was occupied incessantly with from six to eight sets. All appeared to enjoy themselves—some in participation in the dance, and others looking on.

Bald Eagle Tribe at Tyrone presented Great Sachem Charles C. Conly of Philadelphia, with a large and very handsome cake.

We have not room for a more extended notice. The receipts were over three hundred dollars. The pic nic was a grand success.

The Representative Conferees from Huntingdon, Mifflin and Juniata counties, met at the National House, Lewistown, on Friday, September 10, 1869, and organized by appointing Gen. J. P. Taylor President, and Robert Speer and J. S. Lukens Secretaries.

The following conferees were present:

Huntingdon—Robert Speer, J. R Carmon, David Etnier, Jr.

Juniata—J. W. Muthersbaugh, R W. Jamison, J. S. Lukens.

Mifflin—Gen. J. P. Taylor, Capt. C. J. Arms, George Frysinger.

Mr. Carmon nominated John N. Swoope.

Mr. Muthersbaugh nominated Capt. J. C. Howell.

Mr. Jamison nominated Noah Hertzler.

Captain Arms nominated Gen. T. F. McCoy.

On motion, the nominations were closed.

The conferees then proceeded to vote for candidates, as follows:

FIRST BALLOT.	
John N. Swoope,	3
Jno. D. Howell,	3
Noah Hertzler,	
T. F. McCoy.	3
SECOND BALLOT.	
Swoope,	3
Howell,	
Hertzler,	3
McCoy.	3

The names of Messrs. Howell and Hertzler were then withdrawn, and,

On motion, John N. Swoope, of Huntingdon, and Gen. T. F McCoy, of Mifflin, were unanimously declared the nominees for Assembly from this legislative district.

The following resolutions were then unanimously adopted:

Resolved, That we heartily endorse the administration of President Grant as wise, patriotic and economical.

Resolved; That Gov. Geary, by his administration of the affairs of this Commonwealth, during the past three years, has endeared himself to the people, and deserves to be triumphantly re-elected.

Resolved, That we present to the Republicans and Union men of this representative district, J. N. Swoope and Gen. T. F. McCoy as candidates for the Legislature—men pure, able and honest, and in every way worthy of support.

By the Mifflin county conferees.

Resolved, That we recommend to our republican friends of this legislative district to lay aside all personal differences, manfully and zealously support the ticket this day nominated, and thus aid in continuing republican men and republican measures in the ascendancy in our State Legislature—as the only hope our wily and unscrupulous opponents have is in fostering dissensions, making mountains out of mole-hills, and as occasion offers, playing the guerrilla, just as the leaders of copperheadism against Union men and Union soldiers during the rebellion.

Signed by the officers.

The Fair.

The premium list for the next Huntingdon county Fair is published this week. The Fair is to be held on the same grounds as it was in 1867, below town, on Mr. Wilson's field, and is to continue three days, Wednesday, Thursday and Friday, October 6th, 7th and 8th. The arrangements are being made and ample accommodations will be furnished to every department to be represented.

We do not think it is necessary to urge our farmers, housekeepers, mechanics, and others, to prepare for this exhibition. Fairs are held or should be held to afford farmers an opportunity for a comparison of their products, and a comparison of their views in regard to different cattle and different modes of culture. Such a comparison of views should stimulate a renewed enterprise, and give that degree of mental attention which farmers (like every one else) need for effecting the best results. A mistake too often made of late years, and at the exhibitions in every county, we presume, is to place the highest premiums on horses, and in consequence horses and horse races are the most prominent features of the exhibitions. We like fine horses and fast horses, but we think the general interests of the farmer demand good roadsters and staunch draught-horses, and all that relates to their breeding and characteristics should be afforded him at the fair. The excitement experienced at a horse-race may suit an American mind, but it is not the substantial information that will benefit the farmer in raising good stock for general uses. We want to see the fine trotting horses at the fair, as well as the good draught-horses; but we are afraid the public has come to look more for fast trotters at a Fair than they have for good cattle, large vegetables, well fitting machinery and artistic handicraft; and yet every one of these features are expected at the county Fair, as it would not be one without it. They therefore should be recognized and receive premiums which will compare more favorably with those on horses. We offer these suggestions at this time, not with the expectation that anything will be done at present, but to encourage farmers and others who attend the Fair to let their views be known among those who can, if they will, remove the complaints in the future.

A NOTICEABLE FACT.—That one way of appealing to a man's reason is through his *eye. In these busy times men are so* deeply immersed in the conduct of magnificent projects, that they forget all about the condition of their systems, and hence it is that the Proprietors of the PLANTATION BITTERS, which cures Dyspepsia, purifies the blood, improves the tone of the stomach, regulates the bowels, and, indeed, invigorates the whole inner man, are so active in advertising. In fact, advertisements are only skyrockets sent up to attract attention to a really good article.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price. tf

Ladies Dresses and Boys Clothing.

MRS. B. ANNIE MCCABE and Miss MARY REEVES respectfully inform the public that they have removed to the house formerly occupied by H. A GOOD PLACE TO STOP.

The FRANKLIN HOTEL, in the Diamond, in this place, S. D. HEFFNER, Proprietor, is the place for travelers, business men and the people generally from town and country to stop. The best accomodations may always be expected. tf.

A HANDSOME PRESENT.—The largest and handsomest peaches that come to town this season we received as a present from Mr. E. B Shoff, of Oneida township. Delaware peaches were nowhere along side of them.

Farmers needing a Grain-drill, will do well to call on Wharton & Maguire and examine the Willoughby gum-spring grain drill, either with or without phosphate attachment, before purchasing. tf

Mr. S. S. Smith, druggist of this place, had his face badly burned with nitric acid yesterday.

A Laughing Clergyman.

There was in the parish of B., a clergyman, the Rev. Dr. T., a man of high character, and distinguished for his dignity of manner. But it was remarked that frequently, when ascending the pulpit stairs, he would smile, and almost titter, as if beset by an almost incontrollable desire to laugh.—This excited remark, and at last scandal; finally, it was thought necessary for some of his clerical friends, at a meeting of the association, to bring up the matter for consideration.

The case was stated, the Rev. Dr. T. being present. "Well, gentlemen," said he, "the fact charged against me is true, but I beg you to permit me to offer an explanation. A few months after I was licensed to preach, I was in a country town, and on the Sabbath morning was about to enter on the duties of the church. Back of the pulpit was a window which looked upon a field of clover, then in full bloom, for it was summer. As I rose to commence the reading of the scriptures, I cast a glance into the field, and there saw a man performing the most extraordinary evolutions; jumping, whirling, slapping in all directions, and with a ferocious energy of action. At first I thought he was mad, but suddenly the truth burst upon me—*he had buttoned up a bumble-bee in his pantaloons!* I am constitutionally nervous, gentlemen, and the shock of this scene upon my risible sensibilities in fact was so great that I could hardly get through the services. Several times I was upon the point of bursting into a laugh. Even to this day the remembrance of this scene, through the temptation of the devil—often comes upon me as I am ascending the pulpit. This I admit, is a weakness, but I trust it will rather excite your sympathy and your prayers than your reproaches."

Political Powder-Flask.

If the nomination of Judge Packer is sufficient to raise the price of coal $2 per ton, how high a figure will it reach if he should be elected? Laboring men are interested in knowing.

Asa Packer's profits as a stockholder of the Lehigh Valley Railroad, arising from the recent advance of tolls upon that road on anthracite coal, are $29,000 per annum. The increase of toll has advanced the price of coal one dollar per ton in Philadelphia.

The coal question is one of those which the workingmen will bring to defeat Packer. He is at the head of a great coal monopoly and carrying company, and will not in a single instance represent or favor a claim that can only justly be made by the masses of his region.

The Democrats of Pennsylvania are very anxious that the war and all its recollections should be forgotten. In this they are in hearty accord with their candidate, Judge Packer, who, having wholly forgotten his country during the rebellion, naturally does not feel inclined to remember it now.

Pendleton claims that the country is in debt. That is very true. If Pendleton had had his way the country would not have been thus burdened. Neither would there have been any country to be burdened with debt. The debt is part of the price we paid Pendleton's friends for our country.

Sixty times was Major Gen. John W. Geary under fire, and he was never defeated when in command. In one of the fiercest battles of the war his first-born son was shot down near him, but he never faltered. His field service was of the hardest kind from the opening of the war to its close.—How reads Asa Packer's record?

During the eclipse at Council Bluffs, where it was almost total, a county Democrat nominating convention was in session. When surrounding objects commenced to darken, not a little disgust and anxiety was manifested at the unexpected and unpleasant intrusion, and an ardent "wheel horse" of the Iowa Democracy offered a resolution denouncing it as clearly unconstitutional, and an unwarranted outrage upon a free people, perpetrated by the d—d tyrannical Government at Washington. It is needless to say that the resolution was unanimously adopted.

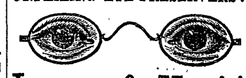
UNFAILING EYE PRESERVERS!



Lazarus & Morris'

CELEBRATED

PERFECTED SPECTACLES AND EYE GLASSES.

The large and increasing sales of these

SUPERIOR GLASSES

Is a sure proof of their usefulness. We were satisfied that they would be appreciated here as elsewhere, and that the reality of the advantages offered to wearers of our beautiful lenses, viz.: the ease and comfort, the assured and readily ascertained improvement of the sight, and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could not be otherwise than it has, in the almost general adoption of our CELEBRATED PERFECTED SPECTACLES by the residents of this locality

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing Spectacles, we afford at all times an opportunity of procuring the best and most desirable.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in each great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appears. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Uterine* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

McGUIRE'S

SPANISH HAIR DRESSER

FOR PROMOTING THE GROWTH, BEAUTIFYING THE HAIR,

And rendering it dark and glossy. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. The use of this oil as a hair dresser has been universal in every section of the country in the Spanish Main for centuries.—No preparation of art could give that elegant luxuriance and abundance of hair which have so often been the admiration of travelers in Spain. This oil is highly recommended and used by the Spanish nobility, and celebrated upon which the Spanish people for many years have set the seal of enduring approval.

McGUIRE'S

Mexican Wild Flowers Shampoo Lotion

For removing dandruff and scurf from the head, whitening and performing the skin. This article is entirely different from anything of the kind ever offered in this country and is warranted free from all poisonous substances This valuable lotion was used by the Emperor Maximilian, and Empress Carlotta of Mexico, and universally used by Mexicans for three hundred years. As a wash for the head—it is cooling, cleansing and refreshing.—When thus used it at once relieves headach.

McGUIRE'S

WILD FLOWERS FOR THE TEETH.

All those who are in favor of white teeth and a pleasant and perfumed breath should at once use McGuire's Wild Flowers for the Teeth.
